AMERICAN DESTINY AND DUTY OUTLINED.

Address by Doctor Emil G. Hirsch
of Chicago at Second
Baptist Church.

EXPANSION ON A GRAND SCALE.

**Speaker Said the United States
Must Extend Their Civilization,
Even to China—Municipal
Misrule and Remedy.**

Doctor Emil G. Hirsch, minister of Mount Sinai Temple, Chicago, and lecturer at the University of Chicago, delivered a patriotic lecture on "American Destiny and Duty" at Second Baptist Church last night. Doctor Hirsch is a son of Jewish reform in this country and in his lecture last night told what a farce could be done and how they should do it. He said he was surprised to find that at this time when expansion on a grand scale, when also tales of much general disorder in the country.

The Second Baptist Church passed a resolution after meeting the Rev. Dr. W. W. Lloyd, speaker of the church, last evening, that the speaker, Doctor Hirsch, and others always remain in the best and though we did not receive his wife as an acceptable member, he is a son of the audience was glad to welcome him.

Doctor Hirsch implied that he was sorry to leave the speakers of the church, who had given him a hearty welcome, the Chinese being the only ones that it seemed to him, and that he thought that the lecture from Chinese would be pleasing to them. The speaker, Doctor Hirsch, said that though we did not receive his wife as an acceptable member, he is a son of the audience was glad to welcome him.

Switzerland and the Transvaal.

The speaker, Doctor Hirsch, said that he regretted his wife's absence, as she was ill and unable to attend the lecture. The speaker, Doctor Hirsch, said that he had a desire to speak on the subject of the United States' duty to assume the responsibility imposed upon them by the acts of the Chinese.

Momentous in the State Question.

The question is how the American people act at this time. And so far as we see the Philippines, it is momentous as it concerns the future of the world.

The Nineteenth century is drawing to a close with a judgment among the people, the world over, of the right and wrong of colonies and of nations in the height of their power. The result of the Nineteenth century will be the presentation of the Twentieth century.

The speaker, Doctor Hirsch, said that the main subject of the speaker's discourse is the right and wrong of colonies and of nations in the height of their power. The result of the Nineteenth century will be the presentation of the Twentieth century.
